office: 686

Office hours: on Friday afternoons by appointment

Course's Objectives - Objectifs du cours :

This course shows how models in microeconomics, game theory, and industrial organization can be used to analyze real world economic problems and guide public policy.

We will develop and solve economic models to answer economic questions.

We will emphasize the novelties and the limits of the models in order to give a critical assessment of the results.

Prerequisites - Pré requis :

Although the course will not use difficult mathematics, some familiarity with game theory will be helpful. Course will use knowledge of microeconomics and basics of econometrics.

Grading system - Modalités d'évaluation :

One mid-term exam and one exam at the end of the semester

Session planning - Planification des séances :

1. Introduction – reminder on public goods and externalities
2. Environmental regulation
3. Contract theory
4. Transportation economics
5. Competition policy
6. Economics of platforms

Distance learning – Enseignement à distance :

Distance learning will be provided only if necessary, by implementing:

- Interactive virtual classrooms
- Recorded lectures (videos) followed by interactive virtual classrooms
- Online tutorials
- Frequent chatrooms
